

Nat Greene Fly Fishers Newsletter

March 2016

March 8th, Tuesday @ 7pm [Leonard Recreation Center](#) - Jeff Burns will talk about fiberglass rods. Fly fishing has been called the “quiet sport”. But like most things today, the mindset has shifted to “better, faster, stronger, further”. Slow down for a few minutes and join us to hear about the history, resurgence, and benefits of fishing with fiberglass fly rods. You might even pick up a tip on how to catch a fish or two. Mike Callahan with Orvis will bring some fiberglass rods, so we can feel and see how they cast.

April 12th, Tuesday @ 7pm [Leonard Recreation Center](#) – TBA

May 10th, Tuesday @ 7pm [Leonard Recreation Center](#) – Jake Rash with the NC Wildlife Resources Commission is going to discuss a study that has been conducted with the assistance of NCSU. Stocked fish have been tagged and tracked in selected Delayed Harvest Trout Waters to find out what they do and where they go after being released into the stream. We have always wondered how quick they acclimate; and if they move upstream, downstream or both. This has been a multi-year project that should have some very interesting findings.

June 14th, Tuesday @ 7pm [Leonard Recreation Center](#) – TBA

July & August No Meetings

September 13th, Tuesday @ 7pm [Leonard Recreation Center](#) – Mike Bawden with Flymen Fishing Co. will talk about their fly tying products and flies as well as the newest, latest innovations that have been launched in 2016.

We meet 2nd Tuesday of the month @ 7pm at [LEONARD RECREATION CENTER](#)
[6324 Ballinger Rd.](#), Greensboro, NC
TU/IFFF
