

Nat Greene Flyfishers Newsletter

November 2013

November 12th, Tuesday @ 7pm Leonard Recreation Center - J.E.B. Hall, Fishing Guide and Author will be our speaker

The November 12th meeting will feature **J.E.B. Hall** as our speaker. Many of you are very familiar with his fishing book's [Western North Carolina Fly Guide](#) and [The Southern Appalachian Fly Guide](#) which are definitive guides to fly fishing. Make sure you bring your copies to have them signed! There will be a limited number of books available for purchase at the meeting.

** In addition to our regular Great Outdoor Provision gift certificate drawing, November 12th is the third of three parts to our new drawing for a [Jeff Wilkins](#) guided trip.

By attending the September through November meetings your regular door prize ticket goes in a pot for a drawing held at the November meeting. The drawing will be for a gift certificate for a day of fishing with Jeff Wilkins. If you attend one meeting of the three you will have one ticket in the drawing, and three meetings will give you three tickets in the drawing.

We meet at 7pm at [LEONARD RECREATION CENTER](#), 6324 Ballinger Rd. Look for us on the soccer field. Please note the bridge IS OPEN!

December 10, 2013 – The December 10th meeting will feature Brian Williams from Martinsville, VA. Brian is going to give us pointers for fishing the Smith River in Virginia.

January – March 2014 Monthly Meeting TBA

April 8, 2014 – Monthly Meeting “Get to Know Your Stream”. We will have a presentation by Jacob Rash, Coldwater Research Coordinator with the NC Wildlife Resources Commission who will talk about changes in stream designations and the commission's new [interactive map](#). We will combine Jacob's information with our member's knowledge. There will be handouts covering where to fish, and what to expect streamside.

2014 Banquet – April 12th

Mark you calendars our 2014 banquet and seminar will be Saturday, April 12th at the New Garden Moose Family Center in Greensboro.

[Jeff Wilkins](#) will be our speaker. Unless you are new to the area you have heard of Jeff, and a lot of us have had the pleasure of fishing with him. Between his tying, casting, and technique expertise it should be a great seminar and dinner presentation!
