## October 2013

### October 8, Tuesday @ 7pm Leonard Recreation Center - Bill Wilkerson Fly Casting Clinic

Are you having problems with your cast, and would like to fine tune it? If so this is a do-not-miss meeting! Bill will conduct a casting clinic which will demonstrate five key techniques from the [Wulff School of Fly Fishing](#).

Bill has attended three classes with Joan Wulff dating back to 1991. He can attest to the value of the training he received to his success over the years. He has put the techniques to use in such locations as Alaska, Belize, British Columbia, and Coastal North Carolina. In addition to being trained by casting expert Joan Wulff, Bill received a casting instructor's certification from the Federation of Fly Fishers.

The clinic will focus on Joan's basic setup lesson of casting, to give the anglers the skills to cast single handed fly rods in challenging conditions. Bring your favorite rod and fly line.

\*\* In addition to our regular Great Outdoor Provision gift certificate drawing, October 8<sup>th</sup> is the second of three parts to our new drawing for a [Jeff Wilkins](#) guided trip.

By attending the September through November meetings your regular door prize ticket will go in a pot for a drawing held in November. The drawing will be for a gift certificate for a day of fishing with Jeff Wilkins. If you attend one meeting of the three you will have one ticket in the drawing, and three meetings will give you three tickets in the drawing.

We meet at 7pm at [LEONARD RECREATION CENTER](#), 6324 Ballinger Rd. Look for us on the soccer field. Please note the bridge IS OPEN!

**November 12, 2013 – Monthly Meeting TBA**

**December 10, 2013 – Monthly Meeting TBA**

### **2014 Banquet – April 12<sup>th</sup>**

Mark you calendars our 2014 banquet and seminar will be Saturday, April 12th at the New Garden Moose Family Center in Greensboro.

[Jeff Wilkins](#) will be our speaker. Unless you are new to the area you have heard of Jeff, and a lot of us have had the pleasure of fishing with him. Between his tying, casting, and technique expertise it should be a great seminar and dinner presentation!
