December 8th, Tuesday @ 7pm [Leonard Recreation Center](#) Jake Rash with the NC Wildlife Resources Commission is going to discuss a study that has been conducted with the assistance of NCSU. Stocked fish have been tagged and tracked to find out what they do, and where they go after being released into the stream. We have always wondered how quick they acclimate; and if they move upstream, downstream or both. This has been a multi-year project that should have some very interesting findings.

We meet 2nd Tuesday of the month @ 7pm at [LEONARD RECREATION CENTER](#)
